THE BANGOR DAILY

[illegible]

For 1880

Commenced its Forty-Seventh Volume with the New Year, with all departments fully equipped and prepared to maintain its position as one of THE LEADING DAILY PAPERS OF NEW ENGLAND. THE WHIG AND COURIER receives all the telegraphic news of the *Maine Associated Press*, and has an extensive corps of correspondents throughout the State. The Publishers aim to make it in all respects a

First Class Family Newspaper,

devoting care to the presentation of entertaining and instructive news and literary matter; to the encouragement of Agriculture, manufacturing and other home interests; with original and selected stories and poetry, and choice miscellany.

Its Regular Reports

will give the proceedings of Congress and the events at Augusta this winter will be chronicled daily by a thoroughly-informed special correspondent.

IN THE POLITICAL FIELD

the WHIG AND COURIER will continue to advocate and uphold the Principles of the Republican Party, while claiming to be independent, in the highest and best sense of the word. Fearless and outspoken in the treatment of all public questions and firmly maintaining what they believe to be right, they will avoid intolerance and make their appeals to the understanding rather than to prejudice. The Presidential election and the important issues it involves,—the proceedings of Congress and of our State Legislature,—the great activity and improvement in all the industrial and business departments of the country, will make the coming year one of the most exciting and important in the history of the country, and the WHIG AND COURIER congratulates itself that the Republican Party of the Union will enter the year 1880 united upon the platform of Principles which that paper has steadfastly maintained while so many wavered.

THE WHIG AND COURIER will be sent by mail postage-paid, at the following rates, invariably in advance:

$8.00 per Year; $4.00 for 6 mos; $2 00 for 3 mos. $1.50 for the session of the Legislature.

THE BANGOR WEEKLY COURIER

is the largest weekly paper published in New England. Every issue is accompanied by a two-page Supplement, making a newspaper of FORTY-EIGHT COLUMNS almost entirely devoted to reading matter; it contains all the latest telegraph news up to the hour of going to press, and gives the substance of a whole week's edition of the Daily, including Ship News, Produce, Brighton Cattle and other Markets, with a large amount of family reading.

Terms, postage-paid, in advance:

$2.00 per year; $1.00 for 6 mos.; 50 cts. for 3 mos. Or to Clubs in any one town: 15 copies for 1 year, $26.25; 25 copies 1 year, $40 00; 50 copies 1 year, $75.00; with copy free to person remitting money for the club.

The salary of the Governor of Maine has been fixed by the Legislature at $2,000, to take effect after this year.

Rev. H. A. Philbrook, formerly of Calais, has accepted the pastorate of the Universalist church in Biddeford.

Governor Tabor, of Colorado, is going to use a part of his large fortune in building a handsome opera house in Denver.

Religion finds the love of happiness and the principle of duty separate in us, and its mission—its masterpiece—is to reunite them.

When a key was called for and the gentleman pulled out a corkscrew, some one remarked that that was the key that unlocked his gait.

When an Associated Press agent neglects to telegraph that a base ball club has secured three new bats, he is an enemy to his country and should be bounced.

The following patents were issued to citizens of Maine under date of March 16, 1880: F. Hanson, Hollis, wood cutting tool; S. N. Silver, Auburn, steam engine.

Rev. Dr. S. Parmalee, of Oswego, N. Y., now in his ninety-ninth year, is the oldest Congregational minister in the country. He was installed in 1808 in Vermont. He practiced for more than sixty years, and is still in excellent health and spirits.

One of the grounds on which Mr. Day demands a divorce, at Lafayette, Ind., is that his wife, "although well knowing that the plaintiff was a Democrat, refused him the privilege of bringing Democratic papers to his house."

Some sanguine speculators predict that wheat worth $1.50 now will be worth $2 00 in June. However much it is worth in June, it is pretty sure to be reasonably cheap when the new harvest comes in unless the harvest should be deficient.

The under-planking of the Brooklyn Bridge, about 1,100,000 feet of timber, is to be "creosoted," to preserve it from decay, in the same manner it at railroad ties are on the Continent. By this process the wood is first subjected to the action of steam heat until all the moisture in it is thoroughly evaporated, and then saturated with creosote oil, which effectually preserves it from decay.

"Leap year gives young ladies a gentleman's privileges in making love." Perhaps it does. But no respectable young man will have anything to do with a young lady who takes a position on the street corner, and not only winks at the gentlemen as they pass by, but also squirts tobacco juice on their coat tails. Nor would it look well for a dozen or more of young ladies to loaf around in front of a church an hour and a half on Sunday nights, sparring and knocking one another's hats off, and dancing a tra-la-la on the sidewalk, in order to kill time until the congregation is dismissed, and then buckle up to a young man and escort him home. Not any.—*Norristown Herald.*

Mr. Blaine presented in the Senate, Wednesday, a petition from the widow of Major John W. T. Gardiner, of Maine, United States Army, retired, asking to be paid the sum of $881 due her husband. It appears that Major Gardiner was retired in November, 1861. In December, 1861, he was assigned to duty as general superintendent of the recruiting service for the State of Maine. In July, 1862, Congress passed a law providing that any retired officers assigned to active duty should receive the full pay of his grade. Major Gardiner received only the pay of a retired officer, consequently there is still due him by the government the difference between full and retired pay for the time he was on detailed duty, amounting to $881.

The bill reported by a majority of the Committee, to regulate the studies in the Agricultural College and to cut off all future appropriations, has been indefinitely postponed in the House and the Senate has concurred. This leaves the status of the College unchanged, and a resolve appropriating $3000, to meet deficiencies has passed through both branches. We congratulate the management of the College on the success which has attended their efforts in resisting the attacks of those who would reduce this State Institution to a mere high school. We thought it a proper thing at the time, to join the Committee on Education to that of the Committee on Agriculture, to visit the State College, and in theory we still believe it was right, but the former Committee was so constituted that a report favorable to the College was not to be expected. The minority of the joint Committee made a good fight and won.—*Me. Farmer.*

A bill reported in the lower House of Congress, recently, creates a Department of Agriculture, the chief officer of which shall be a Cabinet officer to be designated as the Secretary of Agriculture, and shall be in all respects equal to the other members of the President's Cabinet. It also provides for an Assistant Secretary, who shall be a practical agriculturist, and shall receive $3,500 per annum, a veterinary division, to be presided over by an experienced veterinary surgeon, who shall receive $3,000 per annum, whose duty it shall be to investigate all diseases among animals and devise means for their prevention and cure, and a division of entomology to be presided over by a skilled entomologist, whose salary shall be $1,000 per annum, who is to investigate and report upon every variety of insect injurious to textile, cereal and other products of the earth, and suggest preventive legislation. The department is to collect all the information possible in regard to agricultural products and interests, wages of labor, labor supply, rates and facilities for transportation of agricultural products. The bill which was under discussion in the Committee on Agriculture for a long time, and then perfected in all its details, was finally adopted by an almost unanimous vote of the Committee. It is thought it will pass both branches.

PORTLAND. The Portland Company have contracts on hand to fill for the Eastern Railroad Company, amounting to $70,000. The payments by the road to the company the past month have amounted to $25,000. The average monthly payment to employes and others, which is disbursed in this city, is between $5,000 and $6,000.——Repairs are in progress on the Boston & Maine wall on Commercial street, near the foot of Park street.——Kimball's carriage factory has been entirely removed and the site is now ready for the new Kimball block.——The work of remodelling the brick block next to Dana's apothecary store on Congress street has been begun.

Kennebec.

It is reported that Mr. Chaffee of Winslow, has sold his farm upon which there is a tin mine, to Col. I. S. Bangs, of Waterville for the snug little sum of $10,000.

Mr. T. J. Emery, who has the work in charge, reports good progress on the fishway at Augusta Dam. It is to be built at the west end of the dam, close to the gate house; is to be eight feet wide, and to consist of a series of flumes, one above the other, and one foot apart, so that it will be very easy for the fish to go from one flume to another. The amount of water running over it will be regulated by a gate at the top.

Mr. N. G. Dow, a Waterville boy who wandered off to California so long ago that many of our people have almost forgotten him—came back to his old home with his wife a few weeks ago, making glad the hearts of Mr. and Mrs. C. A. Dow and Mr. and Mrs. Wm. W. Edwards, by the sight of a plump little grandson. Mr. Dow was intending to visit Waterville this season, but he came earlier than he intended on account of the serious illness of his mother, who still lies quite low, though improving slowly. He will probably tarry here some months.

There have been some sudden and unexpected deaths in Wiscasset from the diptheria among the children, in the community of late. After passing through the attack, and all the active symptoms have disappeared, convalescence was established, medical treatment discontinued, and all the functions of the body having resumed their normal condition with every prospect of a successful termination, the little patients have suddenly lost their hold upon life, and at the time when hope for their recovery seemed almost certain, the spirit left the sickly tenement and took its flight to the world beyond the stars. The fatal cases were attended with active hemorrhage, from the nostrils and mouth, indicating a malignant form of the disease, from which there seems to be no escape.——The hay and ice business continues active; the shippers of these two commodities are busy as ever. The schr. George (not Jefferson) Borden, from Fall River, is taking in a cargo of ice at Birch Point.——Mrs. David Munsey recently died in the north part of the town at the age of eighty-three.

The town of Machias is out of debt.

CALAIS. A young child of Capt. Coleman, master of the steam tug Wellman, died suddenly of croup on Monday last.——The potato business is quite brisk, but the price remains steady at thirty-five and thirty-seven cents, and farmers are now quite willing to dispose of their surplus stock.——A cargo of ice is now being shipped by Waite Bros., to parties west. A large number of men and teams are employed in cutting and hauling the ice. This cargo it is not improbable may be the presage of an industry in this section in the ice business of no small consideration, and at no future date.——Some fine specimens of gold ore have been discovered in Baileyville on land owned by Mr. Samuel Kelly. It is said to be of as superior a quality as that now on exhibition here which was obtained from the Blue Hill and other Maine mines.

NEW MAGAZINES.

The April ATLANTIC MONTHLY is a red-letter number, containing three new chapters of Mr. Howell's very striking story, The Undiscovered Country, and the opening chapters of The Stillwater Tragedy, a serial story by T. B. Aldrich. This begins in a way to fascinate all readers, and though a tragedy is disclosed at once, the humor and narrative charm which all of Mr. Aldrich's stories possess are here in full perfection. These two serials are enough to make a notable number of any magazine, but the ATLANTIC has, in addition, Clary's Trial, a capital short story by Rose Terry Cooke; A Canterbury Pilgrimage, one of the most engaging of Richard Grant White's English papers; The Lost Occasion, a fine poem by Whittier; some charming Verses for a Letter, by Miss Sarah O. Jewett, author of Old Friends and New; Reminiscences of Washington, a delightful chapter of anecdotes and recollections of Jackson's administration; and a large variety, besides, of poems, essays, reviews, and the Contributors' Club,—all making an exceptionally good number of what an English journal calls the best of the monthlies.

LIPPINCOTT'S MAGAZINE. The Xth Chapter of Dr. Oswald's Summerland Sketches, which is the opening paper in LIPPINCOTT'S MAGAZINE for April, describes the ruins of Uxmal, that mysterious buried city of the New World, which attests the existence, at some former period, of a race of builders on this Continent rivalling those of Nineveh in the grandeur of their designs, in mechanical skill, and in amplitude of means. Three Lakes of Central New York is a pleasantly written and well illustrated article, by Frank H. Taylor. In The English Workingman and Commercial Crises, the first of two papers by Octave Thanet, the writer traces the effects of political changes, legislation, commercial panics, and other influences on the condition of the laboring classes, with the view of elucidating what may be justly termed the most perplexing problem of modern civilization. Mrs. Mary Treat describes A Phase of Life in Florida. Dr. R. Osgood Mason has an instructive article Concerning Animalcules. Dr. Dulles gives practical suggestions about Eating; and an anonymous writer gives an account of The Red Cock, the name applied to successive revolutionary outbreaks of the Russian peasantry during the last half century. In the way of fiction this number contains a fresh instalment of Adam and Eve, a popular serial by the author of Dorothy Fox, short stories by Sherwood Bonner, author of Like unto Like; and Mrs. Lizzie W. Champney; and a story of Russian life and character, by Vera Lapoukhyn. The Monthly Gossip is unusually full and entertaining.

National Republican Convention.

A National Convention of the Republican party will meet at Chicago on Thursday, the 3d day of June next, at 12 o'clock noon, for the nomination of candidates to be supported for President and Vice-President at the next election. Republicans and all who will co-operate with them in supporting the nominees of the party are invited to choose two delegates from each Congressional District, four at large from each State, two from each Territory, and two from the District of Columbia to represent them in the Convention.

J. D. CAMERON,
Chairman National Committee.
THOMAS B. KEOGH, Secretary.

THE ELECTION LAWS.

The Democrats of the House on Friday suddenly changed front and united to pass an amendment to the Deficiency Appropriation Bill recognizing and appropriating money for the election laws which they had sworn never to sanction. Gen. Garfield had on a previous day offered a substitute for a Democratic amendment and on Saturday the Democrats adopted the substitute providing that hereafter special deputy marshals shall be appointed by the U. S Circuit Judge, and, in his absence, by the District Judge, equally from the several political parties of the district; that they shall be of good moral character and residents of the district wherein they are appointed; and that they shall receive their present rate of compensation, $5 per day. Messrs. Reed, Frye, Williams, Conger, Hawley and Keifer, vigorously opposed the measure, declaring that they would not consent to any compromise, or approve any change in the election laws, as a rider to an appropriation bill. The clause was adopted by 115 yeas to 107 nays, all the Republicans voting nay except Belford, of Colorado, Davis, of California and Field of Massachusetts. On the final passage of the bill, which also appropriates $7,600 to pay the special deputy marshals for services rendered, the vote stood 111 yeas to 104 nays, Mr. Garfield voting against the bill.

The Democrats have thus abandoned the issue of the unconstitutionality of the Election Laws, upon which they fought through the whole of the noted Extra Session.

BROWN'S REGRETS.

Ex-Councillor S. S. Brown was interviewed last week by the *Somerset Reporter* and contradicted Garcelon. He says he told the Council the whole story about the Fairfield return, but Parker said they could not receive any information outside the return. When asked what he thought of Garcelon's assertion of ignorance of the political complexion of the Legislature he had certificated, his reply was as follows:

Brown. When the count was completed I did, and Gov. Garcelon must be—well he must be a strange man to receive the votes of a certain party, become Governor, and then not take interest enough in the count to know which party succeeds.

Reporter. I should say so. Why, I suppose you shook hands all round and congratulated each other upon what a good job you had done?

Mr. Brown's only answer was a quiet smile.

Brown said he did nothing he did not feel "justified in doing," but he would not do it again. He thinks "the decision of the Court has righted things, but the affair has caused a great deal of trouble and I am sorry for the part I have had in it, although I thought I was right." He concludes: "It has been a bad piece of business for me and upon the whole very unsatisfactory." We should infer that ex-Councillor Brown's principal regret is at the lack of success of the conspiracy! He is likely to find issued joined by Mr. Benson upon his (Brown's) statement. "I do not believe there were any changes made in returns. If so I do not know who did it." That is as thin as some of Garcelon's innocence.

CAN HE CARRY NEW YORK?

[From the N. Y. Tribune.]

It being well understood that the brunt of the Presidential contest must be borne in two or three of the so-called doubtful States, the friends of particular candidates are busy trying to demonstrate that their man, and their man only, can "carry New York," or "carry "Indiana," or break the Solid South. We hear, for example, every now and then, that Mr. Blaine could not possibly obtain the electoral votes of New York, since the Conkling influence would be dead against him in the canvass as well as in the Convention.

We believe that this prediction does great injustice to the New York Senator and to the Republican voters of the State. The supporters of Mr. Conkling will indicate their preferences by a frank and open contest before the nomination; after the Convention they will support the nominee; for the Republican party does not purpose imitating the faction fights of Tilden and Kelly. But so far as the relations of Messrs. Conkling and Blaine are concerned there is certainly no cause for uneasiness. The "Conkling influence" may or may not be essential to success, but in any case Mr. Blaine will certainly have it if he prove the victor at Chicago. It would be the political ruin of Mr. Conkling to imperil the success of the party, especially in a critical Presidential campaign, by a half-hearted support of the regular choice of the National Convention; and there is not the slightest reason for supposing that he or any of his associates will think for a moment of any such treacherous course. Whatever rivalry there may be between the two Senators is legitimate and honorable. In the Cincinnati Convention of 1876 Mr. Conkling was one of Mr. Blaine's most resolute and persistent opponents; but it was arranged that if Blaine obtained the nomination, Governor Woodford should at once take the floor, and, speaking as Mr. Conkling's friend, should formally pledge the electoral votes of New York to the Maine statesman; and the pledge would have been loyally kept, so far as the power of the Republican leaders of the State extended. Mr. Conkling's friends would have done their best for Mr. Blaine in 1876, and they will do their best for him in 1880 if the occasion present itself.

Those who assume that Mr. Conkling would not heartily support Blaine assume at the same time that he would support Washburne. This would be more embarrassing. Conkling and Washburne quarrelled bitterly, a long while ago. They have not spoken together for twenty years. If the carrying of New York is to depend upon the personal friendships or enmities of one distinguished political leader, then Mr. Washburne, who is talked of as the compromise candidate to reconcile all rivalries and animosities, is the one man we ought specially to beware of.

SIGNIFICANT ADMISSIONS.

[From the Boston Journal.]

The admission of the minority of the Hale Committee to investigate the counting-out frauds is most significant. The Fusion members of the Committee cannot agree to all of the conclusions reached by the majority, but "they cannot deny that the recital of facts in the report is substantially in accordance with the testimony." Again the minority say that "the evidence being uncontradicted, we cannot make a denial of the facts proven by it." These admissions to the effect that they believe that the returns were tampered with; that one set of rules were adopted for the rejection of Republican returns but set aside when Democratic towns were considered, and like irregularities, in connection with their regret that the members of the Garcelon Council did not accept the invitation of the Committee to come forward and explain "the irregularities which seem to exist," lead one to believe that the Fusion members of the Committee believe that these gentlemen could have explained the whole thing, and that they did not do so because these revelations would be in the nature of a confession. Again, the statement of the minority that Councillor Moody "failed to explain the irregularities which had been proven," is another implication that the late Council and its employes, several of whom fled the State pending the investigation, could have told the public who were the authors of the conspiracy. As it now stands, the failure of those parties to appear and testify is tacitly accepted, even by the Fusion minority of the committee, to be an evidence of guilty knowledge or participation in the crime, which was defended by nine tenths of the Democratic leaders in the country.

JOHN BENSON, JR., DISGUSTED WITH THE FUSIONISTS.

HE IMPLICATES COUNCILLORS PARKER AND BROWN IN DOCTORING RETURNS.

John Benson, Jr., formerly of J. L. Smith's "Staff," and Fusion Deputy Secretary of State, who was arrested for abstracting the first tabulations of the Council, came before the Investigation Committee Thursday afternoon, in response to a summons, and testified as follows: "At an early date in Nov., before the 17th, I met in Bangor by appointment, Councillor F. G. Parker of Garcelon's council. Parker told me that there was a defect in the Fusion return of Dixmont, which must be corrected in order to count the vote to save a Fusion Senator. He said they proposed to throw out some Republican returns similarly defective, and hence this Fusion return must be corrected. Parker told me (Benson) that Councillor Brown of Fairfield, had a blank return which he would send to me (Benson) for the purpose of being corrected." The return was corrected and counted.

Benson further testified that the first tabulations which are missing, were put into his hands for safe keeping by a Councillor whose name he declined to give, and that he had them in his custody at Newport and would surrender them to the committee.

Benson was brought before the municipal court at Augusta, Friday, on charge of embezzlement of $180 of State money, paid him Feb. 21, by Garcelon, with instructions to pay to Black and French. He was put under bonds to appear Feb. 19th, and did not do so; and his bondsmen now surrender him. Benson's defence was that he intended to return the money to the State; and that he did not pay it to Black because he thought Garcelon had no authority to use State money. He was discharged.

BLAINE IN WISCONSIN.

[Interview With Col. E. W. Keyes.]

"Who is your first choice for President, Mr. Keyes?"

"Blaine, first, last, and all the time. Blaine, morning, noon, and night. I led the delegation for Blaine in Cincinnati in 1876, and voted for him after there were votes enough cast for Hayes to nominate him. I want a Republican and a stalwart nominated, and therefore I am for Blaine. I want to see a man elected President who will give a Republican administration, therefore I am for Blaine I want a man elected who will preserve the unity of the Republican party in all States, therefore I am for Blaine. I want a President who will preside over the nation with a big N, therefore I am for Blaine. I want a man who will guarantee a Republican form of government to every State in the Union, hence I prefer James G. Blaine."

DOWNFALL OF THE CONSPIRACY AGAINST WALLACE R. WHITE.

[From the Kennebec Journal March 20.]

The wicked conspiracy against Wallace R. White came to a fitting close yesterday. It was a part and parcel of the counting-out conspirators' plans to capture the State government. There was desperate need at the organization of the Legislature to raise with startling emphasis the cry of bribery against the Republicans, and Wallace R. White was the victim selected for the despicable operations decided upon.

The case was heard fully and patiently by one of the most honorable and able committees that could be selected in the House. Against the square, manly, candid statement of Mr. White, there was no evidence except the testimony of the men who having sworn to the performance of a base and criminal act in connection with this matter were not entitled to and did not have credence with the committee or the public. Mr. White's statements were supported by strong testimony from others and by a character spotless and pure, as was eloquently set forth by his able counsel.

Every Republican upon the committee signed the report exonerating Mr. White, while one of the Fusionists refused to sign either the minority or majority report. This division of the opposition is a very strong point in Mr. White's favor. Even this partisan friend of Swan and Harriman would not endorse their course or believe their assertions that an attempt was made to bribe them.

The debate in the House yesterday over the matter was one of the most thrilling and able of the session. It most grandly overthrows the infamous conspiracy against Mr. White, and leaves his name as pure and stainless as it was before the base calumnies of Swan and Harriman were uttered. We congratulate Mr. White upon the complete vindication of his character which has been the result of the investigation. As for Swan and Harriman, the rebuke which they have received is one that should keep them forever in the obscurity of private citizenship, and cause them to feel that the finger of public scorn is henceforth to be pointed at them.

A Washington special says: "The Grant managers in Washington are much astonished and a good deal annoyed that a convention in Rhode Island, the smallest State in the Union, and one which might reasonably be expected to look to the larger States like New York and Pennsylvania for its cue, go for Blaine, without there being any opposition, or even the faintest demonstration in General Grant's behalf, rather staggers them."

THE MINNESOTA CASE.

A Washington special to the *N. Y. Tribune* says the report of the minority of the sub-committee on Elections in the Donnelly-Washburn case has been printed. It is a very stong document, and will be found to refute completely the false positions assumed in the majority report, an abstract of which was published Friday. The latter document was, it is understood, largely the work of Mr. Donnelly himself, and nearly every page of it is a misrepresentation of the testimony contained in the record. General Keifer, who prepared the minority report, takes up the charge of bribery, which occupies so large a share of the majority report. He shows conclusively that there has been no evidence adduced to show that Mr. Washburn bribed a single voter, or that any man was bribed to vote for that gentleman.

It is understood upon good authority that not all the Democrats of the Election Committee will vote in favor of unseating Mr. Washburn, notwithstanding the great pressure that has been brought to bear. If a vote had been taken in the committee Thursday two Democratic members, it is said, would have voted with the Republicans.

THE STRONGEST MAN.

From the Cleveland, (Ohio) Leader.]

While ready and willing to support any good Republican whom the Chicago Convention may see fit to nominate, the *Leader*, knowing that the existing emergencies call for the strongest possible candidate, and implicitly believing that in him "the hour and the man" will most happily meet, declares itself unreservedly in favor of the nomination of James G. Blaine, of Maine.

BLAINE STRONGER THAN EVER IN PENNSYLVANIA.

[From the Philadelphia Press, Edited by the Hon Charles E. Smith, President of the Utica (N. Y. State) Convention.]

Pennsylvania is for Blaine, although her delegates to the Chicago Convention have been instructed to vote for Grant. There never was a more extraordinary perversion of popular sentiment than was effected by the Republican State Convention when it pledged the votes of Pennsylvania to a candidate whom the people do not want. Wherever a test vote has been taken, either before or since the Convention, Blaine leaves all other candidates for the Presidency so far behind that they would be considered entirely out of the race if the nomination were to be made by the Republican voters. Lancaster, through the action of the standing County Committee, was misrepresented at the State Convention, and her vote was cast for Grant. The sturdy Republican voters of the county are determined to undo this wrong. They have compelled the standing committee to issue a call for primary elections to be held on the 22d of May, at which delegates to the county nominating convention will be chosen, and also two delegates to the Chicago Convention.

The Providence *Journal* gives full credence to the reports that the strikes in the New England factories are brought about by paid agents of English manufacturers. Facts are known that give credence to these stories.

THE CHRISTIANCY SCANDAL. A Washington special says the scandal that has arisen concerning ex-Senator Christiancy and his young wife causes much talk at the Capital. "Her friends declare that he is a confirmed opium eater, and that he has abused and beaten her. His friends say that she tells these stories to win public sympathy before he arrives with proof of her infidelity to procure a divorce. Her story that Zach Chandler paid Christiancy a sum of money for vacating the Senatorial seat, so that he could occupy it, is untrue. It is true, however, that after Christiancy had resigned his seat in the Senate and had accepted the mission to Peru, Mr. Chandler relieved his pecuniary embarrassments by purchasing some real estate from him."

Mason A Walton is taking the preliminary steps towards resuscitating the *Greenbacker*, which had a brief existence in Bangor during the last campaign. This Walton is the same great financier who came down from the town of Alton last fall for the purpose of clearing up all the monetary difficulties that beset the country. It is he who advanced the brilliant idea that the government should burn the bonds which have been deposited in the U. S. Treasury as security for the circulation of national banks. If we could only have a few such great minds scattered around through the country, this could not fail to be a prosperous and happy nation. —*Newport Times*.

The *Kennebec Journal* says that Mr. William H. Bigelow of that city, whom the *Argus* has represented as concerned in bribery, without one iota of cause or justice, will prosecute that paper for libel forthwith unless it retracts its charge against the good name of Mr. Bigelow. The *Journal* well says that it is true that Mr. Bigelow is an active politician, and holds a position under the United States government, but that is no reason why an honorable and respected citizen should be accused of base and criminal acts, of which he is no more guilty than the editor of the *Argus*. And we will add that Mr. B. is too well known as a high minded and irreproachable citizen, to give the least excuse for such a charge.—*Lewiston Journal*.

We can heartily endorse the above, as will every honorable citizen in Maine who knows Mr. Bigelow. The *Argus* is running wild in its malignant chagrin over the exposure of the Fusion villany.

A subscriber writing from Missouri says he meets people from all parts of the country "and they all seem to think the Blaine enthusiasm is destined to carry the National Convention by storm. The Grant movement is not so popular as it was a few weeks ago. Blaine so far has been first or second choice of every Republican I have met and at present is undoubtedly the first choice of most of our Western people. Indiana people whom I have seen say they should give up the hope of carrying the State if obliged to take any other standard-bearer than Blaine."

The second instalment of opinions on the Presidential question, which the *Detroit Post and Tribune* has received from its subscribers, is stronger for Blaine than the first one was. Blaine has more than five times as many votes as all others, and nearly six times as many as Grant. Out of 3,917 preferences, Blaine has 3,167, Grant has 584, Sherman has 64, Washburne 30, and the rest are scattering.

The Boston correspondent to the N. Y. *Herald* has canvassed the Massachusetts Legislature for Presidential preferences and finds the Republican members to stand 41 for Grant; 37 for Blaine; 36 for Edmunds; 33 for Sherman; 21 for Washburne; 15 for Hayes and 6 for Garfield. A large number of the most able and energetic members are enthusiastically for Mr. Blaine.

The *Maine Standard* has now read John Benson, Jr., out of the Fusion party, because he has told the truth on the stand and refused to pay over State money to Black and others. Representatives Henry Ingalls and Nathaniel Wilson have also been "read out" for showing respect for the Supreme Court of the State.

An ex-army officer, who retired from the service when the rebellion broke out, and went into the service of Jefferson Davis, complains to the *Tribune* that his feelings are hurt because men like himself are referred to as traitors. He would have newspapers refer to him and his associates as having "left" the army. To this the *Tribune* replies that the use of these terms is "essential to the truth of history," since there is no other term which can fitly be applied to a man who, having sworn allegiance to the United States, afterward fought against and endeavored to destroy it.

NEWSPAPERARCHIVE®

Whig and Courier.

MONDAY, MARCH 22, 1880.

BY TELEGRAPH.

FROM ROCKLAND.

A Murderess Sentenced—Verdict in a Slander Case.

ROCKLAND, March 20. Hannah Thorndike, convicted of murder in the first degree, at the December term, 1878, for killing Honora Sullivan, was brought up for sentence to-day, the law court having overruled the exceptions. The County Attorney nol-prossed the indictment as to the first degree leaving the verdict for the second degree. Judge Libby sentenced her to imprisonment for life in the State prison, the statute making no difference in the penalty between murder in the first and in the second degree.

In the slander case of Meservey against Dunton, the latter having charged the former with the murder of Sarah E. Meservey at Tenant's Harbor, Dec. 22, 1877, for which Nathan F. Hart has been convicted and is now in prison, the jury returned a verdict for $1668. Another case between the same parties for libel is on the docket. In the above case Fairbanks of Boston, was a witness for the defence. Exceptions were taken.

FROM WINTHROP.

Farmers' Club Meeting.

WINTHROP, March 21. The West Winthrop Farmers' Club and invited guests had a reception supper at Hon. Oakes Howard's Saturday evening, which was a brilliant affair. Address by B. C. Torsey and poem by Abbie C. Howard.

SKOWHEGAN, March 21. The catholic church in this place was totally destroyed by fire this morning. Loss $4000. Insured for $2,000. Cause unknown.

ILLINOIS DELEGATES.

The First County for Blaine.

Blaine Carries the First County in Grant's Own State.

GENEVA, Ill., March 20. The first County Convention of the Illinois campaign was held here to-day for Lake County, a strong Republican county, entitled to thirteen delegates in the State Convention. Parties were very evenly divided resulting in the election of seven delegates to Springfield in favor of Blaine and six in favor of Grant.

FORTY-SIXTH CONGRESS—Second Session.

House.

WASHINGTON, March 20.

The House met to-day for debate only on the Funding bill, and immediately went into Committee of the Whole on that bill, Felton (Ga.), spoke in favor of a substitute which he proposed to offer. Felton expressed himself opposed to every form of interest-bearing debt. Orth believed the public credit was never on so pure a foundation that the Government would be able to refund its debt at a lower rate of interest than three and one-half per cent. Such a bond could be negotiated at par, as the financial world had confidence in the stability of the Government and the determination of the people to maintain its stability and permanence.

Mr Frye of Maine, defended the financial policy of the Republican party, saying that no nation from the creation to the present time could show such a glorious financial record.

Mr. Mills opposed the funding system and said since the war the money power had been relieved of taxation at the expense of the laboring classes.

Mr. Dunnell commended the financial action of Secretary Sherman. Adjourned.

FIRE IN BOSTON.

THE JOURNAL BUILDING IN FLAMES.

Much Damage by Fire and Water.

Rapidity of the Flames.

BOSTON, March 21. Fire was discovered at eight o'clock this evening in the Boston Journal building, 262 Washington, near Water street. The flames were first seen issuing from the roof and the first alarm was soon followed by calling out the entire Fire Department, as the rapidity of the conflagration seemed to render that necessary. The Composing Room is on the 5th floor and the fire which is thought to have originated in the Press Room, was

Carried to the Top of the Structure

through the well of the elevator used for lowering the forms. The compositors at work were forced to take a very hurried leave, as the flames after burning through the elevator wall, made quick headway. The gentlemen in the Editorial Room on the floor below were also forced to make a hasty exit from the burning room.

F. A. Searle's Job Office Damaged.

The second, third and a portion of the fourth floor was occupied by F. A. Searle, the well known job printer, and his loss will be considerable as there was a large amount of stock on hand. The Journal Composing Room is badly damaged by fire and water, while in the Editorial rooms the wreck is general. The Counting Room on the first floor is also damaged to a considerable extent.

Covered by Insurance.

The theory of several is that the fire originated from burning gas in the press room near the elevator, but nothing positive is yet known. No estimate has yet been made of the loss. The insurance on the Journal office is $60,000 and other losses are believed to be covered by insurance.

The Journal to issue as usual.

The Journal will print as usual Monday, the proprietors having availed themselves of facilities offered by the Herald for that purpose. Searle's loss will consist of presses, paper, posters and other material, the full extent of which is not known.

All the important measures that could be disposed of this season were pushed through, and the Commons will meet Wednesday only for the formal prorogation, preliminary to dissolution. The Liberals seem more active and confident, and their organs are freely predicting overwhelming victory. They may relieve, but they can't cure that lame back, for the kidneys are the trouble and you want a remedy to act directly on their secretions, to purify and restore their healthy condition. Kidney-Wort has that specific action—and at the same time it regulates the bowels perfectly. Don't wait to get sick, but get a package to-day, and cure yourself. d&w m20

UNITY HALL.

The Last Meeting of the "Boys' Club."

Unity Hall on Saturday evening was the scene of a very pleasant gathering, the occasion being the last meeting for the season of the "Boys' Club" under the auspices of the "Unity Club." Every Saturday evening during the winter a number of the ladies and gentlemen of the club have met at the hall for the purpose of entertaining young boys whom they have invited to be present, and who otherwise would doubtless pass their evenings in the streets, subjected to every sort of bad influence.

Books, papers and games of various kinds have been provided, readings and short instructive lectures introduced, and the meetings conducted in such a manner that while the boys were made happy for one evening in the week, it should not end with the simple pleasure of the moment, but that some lasting good might be gained by combining instruction with the games, and particularly, that by association with ladies and gentlemen in this pleasant way, there should be a change from the rude and boisterous, not to say aggressive manner so frequently encountered. That a decided improvement has been made in that respect was very noticeable to those who were present last Saturday evening and witnessed the quiet and orderly deportment of the boys, and their evident appreciation of the interest which had been taken for their welfare. At this closing entertainment a number of charades were given, the solutions to which as volunteered by the youthful auditors, were characterized by more originality than penetration.

Mr. Woodbridge read a short selection, after which a play was presented entitled "The Magician," followed by some very interesting remarks by Prof. Paine. Refreshments were then served, and the entertainment concluded with a series of shadow pictures illustrating the thorny path traveled by all true lovers, but who eventually triumph over the obdurate parent and are made happy.

Too much praise cannot be given to the President of the club and the ladies and gentlemen who have so ably assisted him, for the devotion of so much of their time, and their persistent efforts for the improvement of these boys, and it is to be hoped that the result attained will satisfy and repay them for the labor of the winter and encourage them to a renewal of the good work another season.

THE ICE INDUSTRY.

Some Interesting Facts.

Mr. Editor: Allow me, if you please, a space in your valuable paper to give a few facts and figures relating to this important interest, which has so recently attracted the attention of our citizens. Ice and frozen snow have been known as luxuries very far back in history, the latter being mostly in use in the East. The mode of gathering it in the winter and transporting and preserving it for use in those extremely hot climates, was truly primitive and required great labor and expense.

In many portions of Asia the snow was crowded in sacks far up the mountains and brought to the principal cities on the backs of mules, there preserved in cisterns sunk in the earth, packed carefully in straw. This method is still practiced in some sections of those countries. In India the ancient Greeks and Romans produced artificial ice in small quantities, and within the last half century successful experiments in its manufacture have been made both in this country and Europe.

It is difficult to realize that now in our time the frozen lakes and rivers of the North furnish labor for tens of thousands of men in winter that would be otherwise unemployed, and millions of capital; that in the carrying trade of the country, both foreign and coastwise, ice stands next to cotton and grain and sometimes exceeds the latter; an article the use of which in the last forty years has revolutionized the system of domestic economy. The transportation of ice by sea was not attempted until within the present century. The world is indebted for the grand results that have followed the introduction of the ice trade, to Frederick Tudor, a wealthy citizen of Massachusetts, well known at the beginning of the century for his extensive salt works at Nahant.

In 1805 Mr. Tudor cut from a pond situated on a plantation of his own in Saugus, some two or three hundred tons of ice, hauled it to Charlestown, and shipped a part of it in the brig Favorite and sailed with it to the Island of Martinique, his friends laughing at him for his folly as they termed it; but no amount of ridicule could deter Mr. Tudor from testing every scheme that he thought would pay or benefit mankind. The experiment proved a failure, but satisfied Mr. Tudor as to the future when he should have time to work out the problems presented by the shipment, and finally resulted in his establishing ice-houses at Kingston, the commercial capital of the Island of Jamaica; and he also secured the monopoly of Havana and the introduction of ice in other ports on the Island of Cuba.

Mr. Tudor next introduced ice into our domestic ports, the first cargo being shipped to Charleston, S. C., in 1817, which was then the most important commercial port in the Southern States. One year later, or in 1818, Mr. Tudor established a branch at Savannah, which soon became a rival of Charleston. In 1820 he established ice houses in New Orleans, which thirty years after became the largest consuming city in the United States south of Philadelphia. But little ice up to this time, as strange as it may seem, was used in cities near its production.

In May 1833 Mr. Tudor, at the request of English and American merchants, residing in Calcutta, sent a cargo of say two hundred tons to that port. A voyage to that place in those days required about six months, so the result proved like the first cargo to the West Indies, a pecuniary loss, but established the fact that our northern ice shipped twenty thousand miles, could successfully compete with that prepared by the natives. In 1834 Mr. Tudor sent a cargo to Rio Janeiro, so up to 1836 he was known as the Ice King of the world.

In 1842 the firm of Messrs. George Hittinger & Co., shipped a cargo of Boston ice, in the bark Sharon, to London, which proved a loss, and many amusing stories were told by Mr. Hittinger in his efforts to introduce it in the taverns and club rooms, to cool their punch and other drinks, the waiters blowing the Norway and American ice as not "so 'ard as that made in one week in London" although theirs, was but a few inches thick.

Our foreign shipments are now mostly confined to Japan, China, East Indies, South America and the West Indies, with now and then a cargo to the Mediterranean. The bulk of the shipping trade has been and is probably with Boston and with ports on the Kennebec and Penobscot rivers.

There are no very reliable statistics as to the amounts stored and shipped in past years but I find in an article on ice, by F. H. Forbes, in a number of Scribners *Monthly* for 1873, to which I am indebted for many of the facts and figures stated above, the following statement:

From 1805 to 1856	230,000 tons.
" 1856 to 1873	2,768 000 "
In 1805	130 "
" 1856	140 000 "
" 1872	225 000 "

There is said to be no reliable data at hand to determine the exact date when the first cargo was shipped from Maine, but it is said to be since the war. The same writer makes what he calls a low estimate of the amount (at the date of his writing, 1873,) used in New York, Philadelphia, Baltimore and Boston:

New York,	1,000,000 tons.
Philadelphia,	500,000 "
Baltimore,	500,000 "
Boston,	300,000 "

I think the amount must be largely in excess of this now.

I have gathered these statements, not as wholly reliable, but rather with the hope that some one better acquainted with the business of ice gathering and its shipment will give us more reliable data, as the matter is one in which many of our citizens are deeply interested, and about which they may know little as compared with what they would like and ought to know to make it a profitable investment for the years to come. It seems to me that there should be a column in the coming census reports for this branch of industry that requires so much capital, and gives employment to our shipping and thousands of our workingmen, and helps every other important industry. Pearls on the Maine Coast.

An exchange says, "a pearl weighing twelve grains, taken from a fresh water mussel near Portland, is on exhibition at New York. One found near the same place a few years ago was sold to the Empress Eugene for fifteen hundred dollars."

It may not be generally known that pearls are frequently found in oysters and clams in this vicinity, and hardly a week passes that somebody does not carry these gems into William Senter & Co's., desiring to sell them. As a general rule they are either unsalable on account of imperfection or color. The true gems are always distinguishable. Perhaps a dozen pearls a year will be purchased, varying in value from five to twenty dollars.

It is also a known fact that last summer a drummer for a well known jewelry house in New York was at Mt. Desert and one of the fishermen residing in that vicinity brought him two pearls. Upon looking them over the drummer asked the man what he wanted for them. He said a set of jewelry for his girl. The drummer offered him a set valued at twenty-five dollars, which the man eagerly accepted. The drummer had the pearls set in a pair of earrings and disposed of them for eight hundred dollars. They were found in oysters or clams off Mt. Desert. As a rule marketable pearls are only found in the East Indies.—Portland *Press.*

Injurious Occupations.

There is said to be dust everywhere, but what constitutes dust is a variable material. Many occupations, the working of fibres no less than the working of metals, develop dust and seriously affect the lungs. Iron often settles there. A workman who had polished iron died, and his lungs were found to be hardened, and to have actually one per cent. of iron in their substance. Grinding, particularly needle grinding, is very fatal. These grinders die at the average age of 31. The grinding of other metal products is unhealthy, but to a less terrible degree, and grinders are proverbially neglectful of proper precautions. Making ground glass is a hard life, and hardly any of the workmen at it are sound; 35 per cent. die of consumption, and many lose their teeth and suffer virtual lead poisoning. Diamond-cutters are generally sick men. Vegetable dust is unhealthy, too. The men who prepare moulds for castings sprinkle them with powdered charcoal. They have finally a catarrh with black expectorations, and die of the disease. Millers do not suffer from inhaling dust; they have a singular skin disease, oftenest affecting the left shoulder, where they carry meal bags. It itches at night only, and, according to some authorities, is not a vegetable matter, but an insect. Making brushes is very bad for the health, as the bits of bristle get into the lungs. In button making, bone dust is not injurious, but mother of pearl is very. Feather handling is exceedingly bad for the lungs and throat and for the eyes, and artificial flower-making brings poisoning with it.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind—Old methods of treatment and remedies a failure

CUTICURA RESOLVENT, the great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of Cuticura, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

Messrs. Weeks & Potter Gentlemen,—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful Cuticura Remedies, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The Cuticura has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long looked-for cure and happiness.
I have been afflicted with Eczema or Salt Rheum on my scalp, breast and limbs for five years, during which time I have been under the treatment of physicians, or at mineral Springs, or taking some kind of medicine. I have been treated by Drs. ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.
April 1 last, I began the use of Cuticura, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of the Cuticura entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the Cuticura Resolvent as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.
Yours, etc., STEPHEN CROWELL.
NEW BEDFORD, Sept. 30th, 1878.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to day. E. P. DAGGETT.

NEWSPAPERARCHIVE®

AUTUMN.

(October, 1879.)

BY C. B. BOTSFORD.

Now golden days of autumn glow,
  And Nature spreads her lavish store,
Rich harvests crown the closing year
  And all their varied treasure pour.

The fields yield up a hundred fold,
  The trees bow down in grateful praise,
The sleek and fat'ning kine, content,
  In rich and quiet pastures graze.

The husbandman sings "harvest home,"
  And gathers in his stores of grain
And luscious golden orchard fruit—
  The fruits of patience and of pain.

The woodcrowned hills are all aglow
  With crimson, amethyst and gold,
The flaming shrubs God's presence speaks
  As did the burning bush of old.

In all the varied fields of life—
  Preeminently true in youth—
Whate'er we sow we needs must reap,
  Sow we to virtue, temperance, truth.

Then shall the autumn of our days
  Be crowned with golden fruits of peace;
A calm and radiant sunset prove
  A prophecy in our release.

Are Now Matters of General Interest,

And are Attracting Much Attention,

BOTH FROM SCIENTIFIC AND MEDICAL MEN.

The Following Article will be Read with

Great Interest, Especially by Sufferers from

Headache, Neuralgia, Nervousness, Paralysis and Indigestion.

Celery has only come into public notice within the last few years as a nervine, but scientific experiments and experience have proved beyond a doubt that it controls Nervous Irritation and periodic Nervous and Sick Headaches to a marked degree.

But a combination of the EXTRACT OF CELERY AND CHAMOMILE, which has been but recently introduced to the profession and the public by myself has produced such marvellous results in curing nervousness and headache, and especially nervous and sick headaches, neuralgia, indigestion and sleeplessness, that it has excited public attention and newspaper comments, and, therefore, I give the following information to the public to avoid answering hundreds of letters of inquiry about them.

My Celery and Chamomile Pills, for the cure of headaches and nervousness, are prepared under my supervision, and are intended expressly to cure headaches, neuralgia, indigestion, sleeplessness and nervousness, and will cure any case where no organic disease of the brain or spinal cord exists. Hundreds of cases of many years' standing have been cured. No matter how chronic or obstinate the case may be, a permanent cure is morally certain. This statement is made after years of experience in their use in the general practice of medicine.

These pills are also valuable for school children who suffer from nervous headaches, caused by an overworked brain in their studies, and for all classes of hard brain workers, whose overtaxed nervous centres need repair and sedation. Nervous tremor, weakness and paralysis are being daily cured by these pills. They correct costiveness, but are not purgative.

PENOBSCOT, SS. At the Supreme Judicial Court which was begun and holden at Bangor within and for the County of Penobscot on the first Tuesday, being the 6th day of January, A. D. 1880.

John B. P. Wheelden, of Bangor, in the County of Penobscot, Plaintiff,
vs.
William H. Smith, of Brooklyn, in County of Kings, and State of New York, Defendant.

In a plea of the case, for that the said Deft at said Bangor, on the 2[illegible]th day of August, 1879, hired of the Pliff a certain horse then and there owned by Pliff, to drive from said Bangor, to Belfast, in the County of Waldo, and use there and about said Belfast, for a week from said 2[illegible]th day of August, A. D. 1879 and then drive back to said Bangor, for a certain sum of money, to wit the sum of two dollars per day, and the Pliff then and there delivered to the said Deft the said horse to drive and use as aforesaid and the said Deft on the said 2[illegible]th day of August A. D. 1879 and the following day, to wit the 30th day of August, A. D. 1879 by his servant and agent so carelessly, immoderately and recklessly drove said horse that by reason thereof and for want of due care of the said horse, the said horse was thereby spoiled and his value wholly lost to the Pliff.

Also for that the Pliff at Belfast, Waldo County, Maine on the [illegible] day of August, A. D. 1879, was possessed of a certain mare of chestnut color of the value of four hundred dollars, and being so possessed, then afterwards, on the same day lost the same, and the same thereafterwards, on the same day came into the hands and possession of the said Deft, yet the said Deft though he well knew the same to belong to said Pliff, yet intending to injure and defraud him, hath refused to deliver the same to said Pliff, though thereto requested, but thereafterwards on the same day converted the same to his own use.

Writ dated December 11th, 1879.

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.
